HISTORY OF KASKADE

Since the 1920s we've been creating state-of-the-art baths, using the latest innovations and technology.

From galvanised iron tubs in a dusty gold mining village to sturdy cast iron baths and eventually the first fused, sleek free standing bath designed and manufactured in Australia.

The KASKADE brand offers customers around the world architecturally beautiful stone baths and basins, designed to be the exquisite sculptural centrepiece of extra special bathrooms.

THE KASKADE DIFFERENCE

Couldn't be better. Not all baths are created equally – the architectural splendour of a beautiful KASKADE bath or basin will become the centrepiece of any bathroom. Our exclusive ergonomic designs create a completely relaxing and truly luxurious experience.

Exclusive material. Our Timeless Weight and Rim range is manufactured from an advanced blend of natural limestone and high-grade resin, our silky smooth (and very comfortable) KASKADE limestone composite has superior heat retaining qualities, thanks to the quality insulating properties of our exclusive materials.

Additionally our Light and Thin Rim range of baths are manufactured from a premium and pure resin and ATH derived from bauxite ore. This natural ore is refined to a fine white powder via a patented German process.

Care and maintenance. The matte finish of KASKADE baths not only looks fantastic but is simple to keep clean. KASKADE baths will withstand the rigours of everyday use while always looking as good as new.

Relax with peace of mind. We take extra care to ensure all KASKADE products meet our stringent quality standards. However, should a fault be caused by faulty manufacturing or materials, we'll repair or replace the guaranteed product.

Warranty Period. 7 YEAR warranty on all KASKADE Timeless Weight and Rim range of baths and basins.
10 YEAR warranty on all KASKADE Light and Thin Rim range of baths and basins.
1 YEAR warranty on all KASKADE pop-up waste fittings.

See kaskadestone.com.au for full terms of Warranty.
